United Kingdom Limited

# CAREERS

at General Dynamics UK

# WHO WE ARE

**General Dynamics UK is part of the General Dynamics Corporation and is one of the UK's leading defence companies, as well as an important supplier to the UK Ministry of Defence (MoD). Committed to delivering cutting-edge capability to the UK Ministry of Defence and to customers overseas, General Dynamics UK ensures those operating on the frontline can do so effectively.**

The Company has 50 years' experience in technical leadership, manufacturing expertise and prime contract management skills to deliver C4I communications solutions, Armoured Fighting Vehicle (AFV) capability and avionics systems.

General Dynamics Corporation is a global aerospace and defence Company, headquartered in Falls Church, Virginia – with locations in 46 countries, employing more than 92,000 people worldwide. The company is a market leader in business aviation; land and expeditionary combat systems; armaments and munitions; shipbuilding and marine systems and information systems and technologies.

# WHAT WE DO

**General Dynamics UK is a leading supplier to the UK Ministry of Defence in three key areas: armoured fighting vehicles, avionic systems and tactical communications.**

General Dynamics UK currently provides the tactical communication system used by the UK Armed Forces, known as Bowman - the British Army's Tactical Communication Information System (CIS).

The Company is also designing and developing AJAX, the future of Armoured Fighting Vehicles (AFV), delivering 589 platforms for the British Army.

In addition, the Company provides a range of avionic systems that are used on different types of military aircraft around the world, including the Eurofighter Typhoon, Tornado, AgustaWestland AW101 Mk 3 and Mk4 and AW159 Wildcat (Future Lynx) platforms.

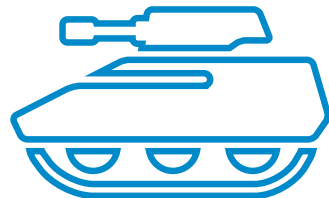

## WHAT WE DO

# ARMoured FIGHTING VEHICLES

- AJAX will provide world-leading protection for the British Army
- Six AJAX variants will support the British Army, and will conduct a range of tasks from observation on the battlefield to transporting troops on the frontline
- The first AJAX platform was delivered to the British Army in 2017 and 589 will be delivered through to 2024.

## WHAT WE DO

# AVIONIC SYSTEMS

- Over 50 years' experience in the UK delivering avionic systems
- Provides a range of different technologies to support an aircraft in conducting its role effectively, including the provision of secure data recorders to store information it has gathered
- A leading provider of avionic systems used on aircraft around the world, including the Eurofighter Typhoon and AW159 LYNX Wildcat helicopter.

## WHAT WE DO

# TACTICAL COMMUNICATIONS

- Delivering Bowman for the UK Armed Forces since 2001
- Bowman provides the UK Armed Forces with secure radio, telephone, intercom and tactical internet services
- Bowman equipment has been installed in 18,000 land vehicles, 120 maritime vessels and 60 aircraft
- Awarded £330 million contract from the UK Ministry of Defence to design and develop the next-generation tactical communication and information system in 2017.
